

Hello Everyone,

It has been quite a year since I took over the role of president. In my previous "Word from the Board," I had made an appeal to our Babylon Township community. Well, you certainly answered! Thank you all for donating, taking part in so many of our wonderful fundraisers, enrolling in sponsorships for our Tanger 5K, and buying journal ads for the Chefs for a Cause event. In addition, many of our community business owners have held fundraisers for our benefit! It surely takes more than a village; it takes a township, and I am very proud to be part of this Babylon Township. Our BBCC team has worked so incredibly hard to meet our participants' needs. I thank each and every one, and I'm proud to work alongside my wonderful board, an army of volunteers, and Terry Prag and Beverly Flaherty, our office angels. Everyone involved is equally dedicated to our cause.

Moving forward, we'll continue to strive to assist all those in need in our Babylon Township who've been diagnosed with breast and/or gynecological cancer. We are offering terrific, volunteer-driven mind/body/soul programs for our participants in treatment. But this year's goal is to reach out to you, our community, and to secure business sponsorships. If you own a company or are employed by a company that would be interested in sponsoring our coalition, we would be grateful for the opportunity of partnering with you. With the sponsorship of one or more businesses, our grass-roots, nonprofit organization would certainly be able to carry out our mission much more easily.

Again, thank you to our community for helping us to help others!

Karen Kunkel, Volunteer President
